**DETAILED ACTION**

***Response to Arguments***

1. Applicant's arguments, see pages 18 and 19 of the Remarks pages, filed 07/07/2009, with respect to claims 15-28 have been fully considered and are persuasive. The rejection of claims 15-28 has been withdrawn.

***Allowable Subject Matter***

2. Claims 15-16, 19-22 and 25-26 allowed.
3. The following is an examiner's statement of reasons for allowance: The cited prior art of record considered as a whole (either alone or in combination) fails to teach or suggest:

An information recording medium, comprising: an object data file for storing object data which is constructed by a unit of a packet which includes time information for indicating a reproduction process time; an object information file for collectively storing object information which includes information for indicating address of the packet of the object data corresponding to each item; a disc information file for storing a plurality of information groups including, as reproduction control information for controlling the reproduction of said object data file, (i) play list specification information for specifying one play list information stored in said play list information file, (ii) Pre command information which indicates a command to be executed before the reproduction based on the one play list information, and (iii) Post command information which indicates a command to be executed after the reproduction based on the one play list information.

The computer program product of claims 25 and 26 that tangibly embodies a program of instructions executable by a computer to make the computer function as at least one portion of a reading device and a reproducing device is to be limited to non-transitory mediums. The specification distinguishes on pages 25 and 26 between "tangibly embodied" and data signals/carrier waves. The later is not a statutory subject matter and is not covered by the said claims.

### **Conclusion**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
